MIDWEST SHOW
CLEVELAND, OHIO
Sept. 14th & 15th,

To our friends and customers:

The varieties in this list are the ones we have grown successfully as we do not care for varieties which are not dependable from one year to the next—we do not list them, as we prefer quality to quantity. We prefer to list those varieties which will give our customers satisfaction. We can furnish new varieties at originator's prices.

The roots we are offering are FIELD GROWN and will prove satisfactory if given proper care and cultivation. We use our best efforts to keep our stock strong and healthy by destroying any plants that are not so.

We wish to thank our customers for their patronage and support, also for the letters telling of the success you have had with our roots and plants. Assuring you all orders will receive careful attention.

Yours for Better Dahlias,
WILL HOOKWAY.

OUR OWN INTRODUCTION FOR 1935

MRS. FRANKLIN D. ROOSEVELT—Named by permission. The majority of the large blooms face upward and the full high centers give it good depth. Formal decorative with long pointed petals. Stiff stem. Color, a soft tyrian rose.

The plants are strong, healthy growers and the foliage is tough and insect resistant.

This variety did exceptionally well for us through the severe heat and drought of the past season. Height, 4½ feet.

Plants, \$2.50—Roots, \$5.00 net
